Any other business?

- What to do in the last year?

WP3.1

WP3.2 (educational events)

Preparations for the EASE foundation

- Statutes finished + translated
- Invitations sent
- Candidates for Managing Committee complete
- Candidates for Scientific advisory board complete
- Minutes for the meeting prepared
- Telecon: hopefully working

Agenda EASE foundation

1. Introduction (Find + elect minute taker by acclamation (York) Find + elect session chair by acclamation (me), Decision about the quorum (7 people, older than 18))
2. Decision about the agenda
3. Discuss the statutes and the foundation of the association
4. Decide finally about the statutes and the foundation of the association → vote
5. Election of the managing committee
6. Election of the auditors
7. Discussion + decision about the financial plan and membership fees
8. Election of the scientific advisory board
9. Any other business

Participants:

- Wolfgang, Joerg, Lyndon, Elena, Enrico, Enrico, York, Francisco, Guus, Jerome, Pavel, ...
- By telecon: Asun, Luis, Jose, Marco
(probably John Davies, Robert Tolksdorf)

REASE Evaluation

- Preparations for the User Study
 - L3S: finish REASEv2 finally...
 - Further steps?
 - What measures?
 - Alexa (proposed by SB) is too focused...
 - Number of LUs, Number of registered users, number of institutions,...
- Eindhoven, Mannheim, Sheffield, VU

What to prove / not to prove?

- System vs. content
 - Usability of the system (down-scaled evaluation)
 - → usage report
- Quality of resources
- Applicability of repository
- Set of tasks to use the repository
 - Students looking for additional material for a given course
 - Lecturers preparing for a course
- Unique: categorization, search metadata, popularity?

Needs

- Slides for explaining REASE
 - Short introduction for the purpose
 - Tutorial → video → put it on the web sites
 - → not to give to the students if you want to measure intuitiveness → more high-level in this case
 - The ‘booking’ thingy

Short questionnaire

- 5 categories, 3 questions each → 15 questions
- Two versions: for students / teachers
- Categorization
- Search / metadata
- Recommendations
- Usability of the interface
- Other suggestion
 - Percent time spent time on search/browsing/...
 - → efficiency
- → need a logfile

Evaluation of Material in REASE

- I need to review material in REASE and distribute it to editorial board members...
- Somebody to help?

Summer school: Future plans

- [OU]
- Use students for REASE evaluation
 - → PhD students!
 - Summer school 2007

PhD student network activities

- [FUBerlin]

PhD symposium

- Money for the award?

Material for industrial education

- SEKT people interested to link their material to REASE...
