75001 Paris

Objectives of the workshop

The goals of the workshop include (but are not limited to) discovering new application scenarios, identifying the challenging problems that still need to be solved, and reporting results and experiences gained by researchers and industry in building Knowledge based applications or services.

And especially we will review the following topics:

o **Industrial application needs**, in order to understand the needs, difficulties and problems of migrating Semantic Web technologies to current industrial systems.

o **Evaluation for technology selection:** survey and profile of the existing ontologies, tools, infrastructures and methodologies in the light of understood industrial requirements for the adoption of Semantic Web technologies.

o **Technology recommendations:** make recommendations, guidelines and standards to help industry organize, design and implement their migration towards Semantic Web technology enabled IT systems.

o **Promotion of ontology technologies:** promote awareness of the added value of the Semantic Web technologies in the increasingly competitive knowledge economy.

Friday 05/03/2004

9.30 Welcoming	Hosting partner	Plenary

- Meeting Organization
- Roll call of all partners   (White pages, Attendance to social event, Hotels)

9.35 – 10.15	O2I managers	Plenary

Outreach to Industry matters and issues
- Main Issues to be resolved and planning for the next Knowledge Web meeting
- Board of industrial partners, MoU, Applications Needs and Business scenario
- Area progress so far
- Deliverables
- Papers and Dissemination
- Summary

10.15 - 12.30 Industry Session	Industry	Plenary

- Arisem Use Case
- Mondeca Use Case

Coffe Break / demonstrations

- Network Inference Use Case
- ….

14.00 - 17.30 Internal KW WP Ad-hoc sessions	Plenary / ad-hoc groups

WP1.1   **Alain Leger**

Applications Needs
- Board of industrial partners, MoU, Applications Needs and Business scenario

WP1.3   Mustafa Jarrar

Evaluation and Recommendation: matters and main issues
- …..

WP1.4/1.5   Ellen Schulten

Promotion and Cross Network: matters and main issues
- …..

WP1.6   Asuncion Gomez-Perez

Portal progress
- …..

17.30 - 18.00 WP wrap-up session	Plenary / ad-hoc groups

- **Main outcomes of the day and Summary of actions**

18:00 End of the 1st Knowledge Web O2I workshop
