Agenda Wednesday (Summary)

Slot 1: WP3.2 meeting [9-10:30]

Slot 2: WP3.3 meeting [11:30-13:00]

- Discussion of steps ahead to be done 2007

Slot 3: General meetings / WP3.1 / WP 3.2 (educational events) [14:00-15:30]

- Review: what to present? 70 minutes (two talks, one demo?)
- New JPA: what to do in 2007?
- Future of Kweb education area beyond 2007?
  - EASE academy
  - Continue summer school? (financing without EU funding…)
  - REASE platform

WP3.1:

- How to fill EASE with life?
- REASE: improvements, new features, more content

WP3.2:

- What industrial events? Tutorials? Industrial version of REASE?
- KWEPSY2007

WP3.3:

- Final ASPL version, integration of services

WP3.2 (shared master)

WP3.2 meeting: EASE academy

- New partners, such as Innsbruck and Lisbon.
- Discussion on the next deliverable led by VU.
- In academic year 2006/2007 the consortium is having an experimental year with few local students, by exploiting already existing regulations (as explained in D3.2.5v2):
  - what are the experiences of the various partners? What can we learn from this first experience?
- During academic year 2006/2007 we will finalise and sign the new regulations and agreements (as explained in D3.2.5v2):
  - what are we going to do about this? Who are the participants really commited to this? Who is willing to lead this effort?

WP3.2 meeting: EASE academy (cont)

- in academic year 2007/2008 we will have this first official year, with all the agreements in place, and hopefully many more students provided by all the KWeb and Rewerse: how can we be more successful that we have been so far? How to attract students, funds, and how to have a more effective programme?

- if everything has been successful so far, in spring 2008 we will submit an application to the European Erasmus Mundus programme. This has to be planned carefully from now. Who wants to be active on this?

Status of Deliverables

- D3.1.6 Final version of statutes, report on foundation, organizational structure
  - Done
- D3.1.5v2 Published Learning Resources and Evaluation of REASE
  - Almost done (partly in QC), but evaluation of user study not yet completed
- D3.2.10 Summer school 2006
  - done
- D3.2.8v2 Report on PhD network activities
  - Berlin-Brandenburg + PhD Symposium

WP3.1
WP3.2 (educational events)

EASE: Future steps

- new members
  - contact to other organizations / initiatives
  - what to use it for in 2007? summer school?
- continue with the AssocOnto association ontology?

REASE improvements

- Large backlog of things from user feedback
  - Some difficult/impossible to fix (browser back button, popup stuff, firewall issues)
  - Including semantic search (query relaxation along topic hierarchy) → WP2.1

Semantic Web Topic Hierarchy v2

- Feedback from Mustafa
- Analysis in D3.2.5v2
- Take a look at
  http://wiki.ontoworld.org/index.php/Semantic_Web_Topic_Hierarchy_v2

Any other business?

- What to do in the last year?
