

KnowledgeWeb General Education Area Meeting

Hanover,
January 2005

Agenda (Summary)

- Summary and wrap-up: What we have achieved (25 min)
 - D3.1.2
 - Demo of VISWER and ASPL-1
- The new JPA: Our plans for the future (65 min)
 - Specific focus on M18 deliverables

Next session(s):

- Discussion: Open issues? (10 min)
- WP business: Discuss details (WPs3.1, 3.2, 3.3)

Summary and wrap-up: What have we achieved

- Preparing for the VISWE statutes: D3.1.2 (L3S, 8min)
 - Decisions made:
 - Non-profit association according to German law, located in Germany
 - Tasks: Host VISWER, support educational events in a flexible way, support shared master as far as possible
 - Decisions to discuss:
 - How to separate the tasks of the outreach-to-industry portal and VISWER regarding the storage of material useful for learning
 - The membership fees
 - Founding members: Personal vs. institutional membership
 - Incentives for members
 - Steering committee members
 - Technical issues around the general assembly of the association (e.g. possible using video conferencing system etc.)
 - Educational events and VISWE (like the SWSA -- ISWC?)
 - Secretary work / notary costs

What we have achieved (2)

- VISWER demo (L3S, 7 min)
 - Open issues: Quality guidelines for providing resources
 - More content for industry
- ASPL-1 demo (OU, 10 min)
- Very successful summer school 2004
 - Not to forget to mention it :-)

Main comments from the reviewers & PO (L3S, 10 min)

- Need more content for practitioners (we call it industrial education or education for professionals)
- Why is VISWER important to have (yet another repository...)?
 - ‘benefits of VISWER’ web page which I have set up recently according to the discussion on the mailing list
- Need quality guidelines ‘KnowledgeWeb certificate’ for the provided content
 - Regarding format (e.g. non-proprietary like html or pdf)
 - Regarding content

The new JPA: Our plans for the future
